National Carrier

The partnership between FAIRPAY and this carrier has grown considerably from its humble beginnings in 2006. Quickly realizing the value that FAIRPAY brought to its bottom-line, the carrier has expanded the FAIRPAY program to more than 20 states, encompassing bills that previously went to smaller networks along with out-of-network vendors.

FAIRPAY differentiated itself as a partner through unparalleled service, hard dollar incremental savings, full scope support and management of the bill life cycle, customized reporting that allows for analysis and internal sharing, and lower litigation rates than in other parts of the carrier's business.

All savings achieved are incremental to the bill review or nurse review performed by the carrier prior to referral to FAIRPAY. Even more noteworthy, FAIRPAY's review and provider negotiations has delivered savings of \$71,752,276 or 51.44% with a reconsideration rate of just 5%.

Total Billed Charges:	\$163,660,250
Recommended FAIRPAY Amount:	\$63,931,877
